

Pascal Racine-Venne

Fullstack Web Developer

Recently completed Le Wagon's **full-stack coding bootcamp** and looking forward to applying this new knowledge.

Seeking to join a team as a **front-end web developer** to deepen and share knowledge of these languages by connecting my synthesis and teaching skills to this new career.

projects

➤ Tourbook (mobile app display)

Management app for touring bands

- Designed on **Figma** and lead the frontend team.
- Integrated **CSS** and **JavaScript** in order to enhance the overall **UI/UX** for a mobile view.

➤ Wheelhouse (AirBnB clone)

Tiny houses rental platform

- Created multiple components using **Bootstrap** and **Flexbox** to make it responsive.
- Worked with team to implement dynamic search engine which locates rental availability via Mapbox geolocation API.
